

Where GeoCov Helps, and Where It Trades Off

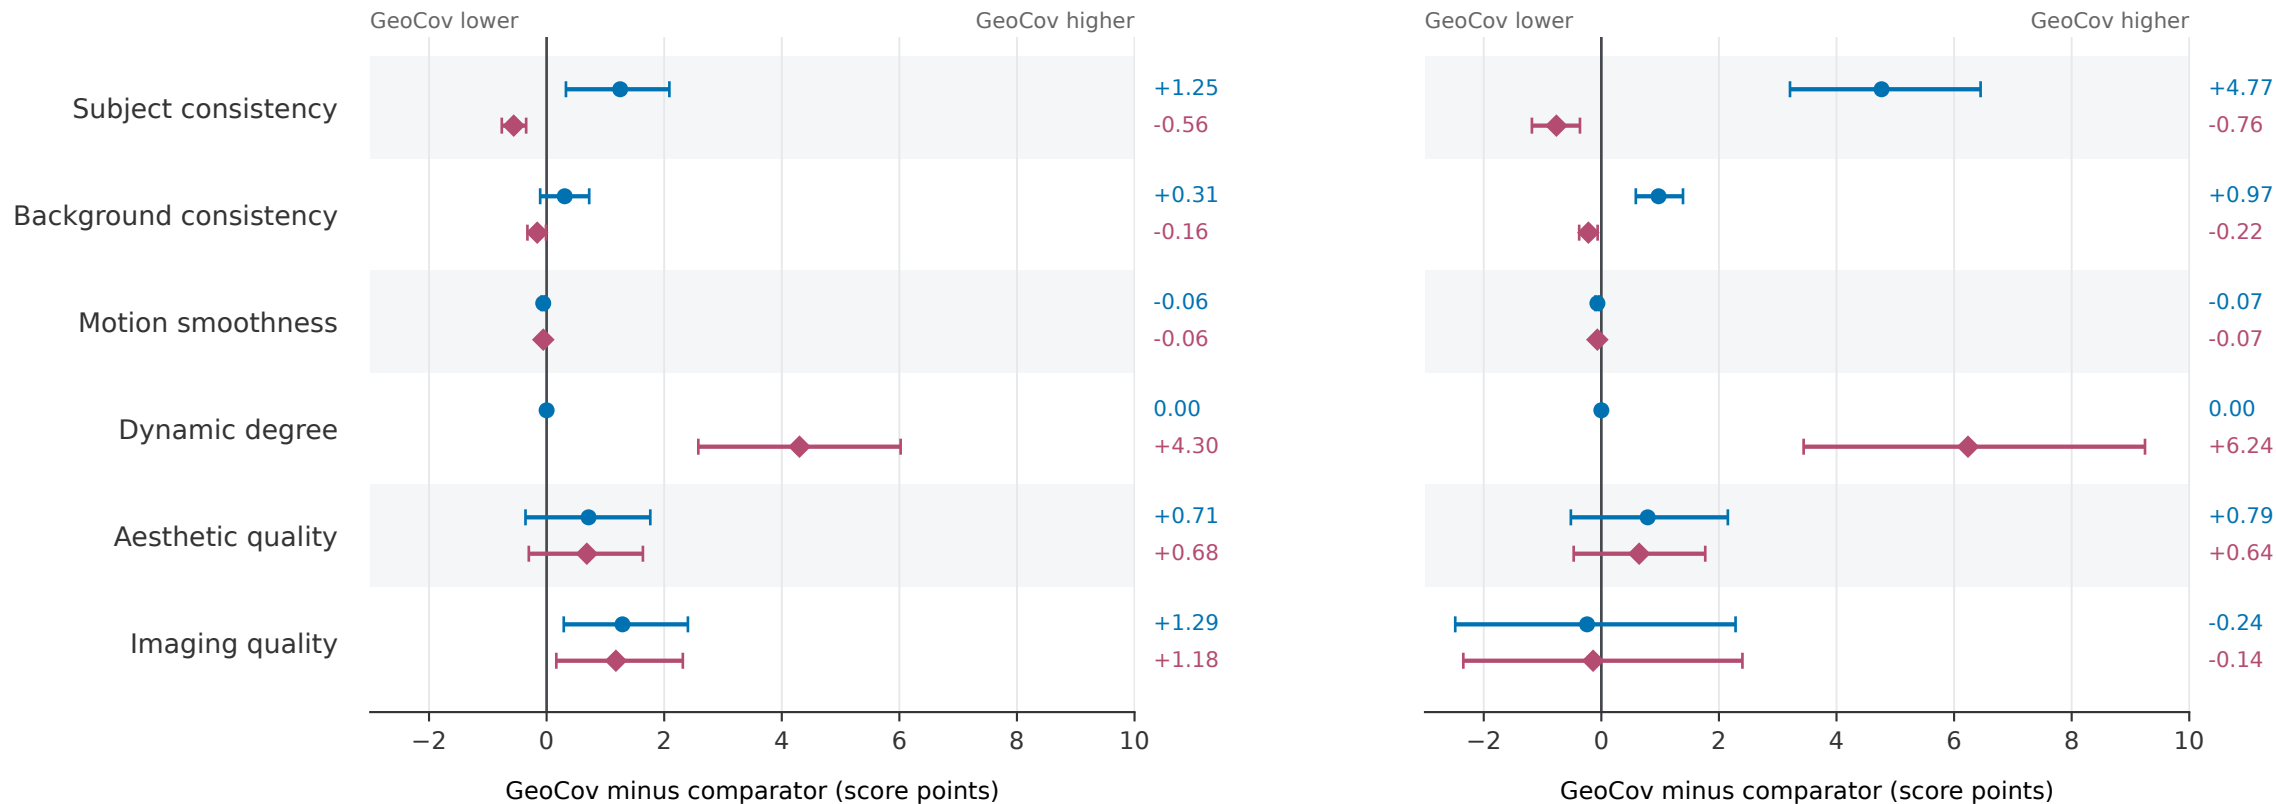

15 matched 60-second videos | GeoCov budget: 32 frames

● VBench

◆ VBench-Long

GeoCov-32 vs. Unbounded

GeoCov-32 vs. FIFO-32

Points: paired mean differences. Bars: trajectory-bootstrap 95% confidence intervals.

Exploratory intervals, unadjusted for multiple comparisons; a higher dynamic-degree score means more motion.

Source: supplied matched-cohort audit (14 September 2026). Fresh GeoCov-only rerun is not mixed into paired estimates.
